TECHNICAL SYSTEMS TESTING

March 14, 2005

Montana Overseas, SA  
Plaza Balhorbour  
Paitilla 2nd Floor M-38  
Panama City, Panama

Dear Sirs,

**RE: TST Evaluation of RealTime Gaming RNG**

This Certification Letter pertains to Technical Systems Testing (TST)'s evaluation of the RealTime Gaming Random Number Generator (RNG).

TST's evaluation of the RealTime Gaming RNG was limited to the laboratory environment, and consisted of a mathematical analysis of the RNG algorithm and an investigation of the software implementation to confirm the fairness of distribution and non-predictability of the RNG outcomes. The evaluation has shown that the RNG algorithm produces a statistically acceptable source of random numbers. The scaling and mapping algorithm produces numbers that have no statistically significant bias. Additionally, the software implementation of the RNG has been determined to produce outcomes that are virtually impossible to predict using external means.

TST's evaluation of the RealTime Gaming RNG was performed with the aim of verifying compliance with generally accepted industry standards for highly regulated jurisdictions, as well as with the manufacturer's specifications. Subject to the limitations outlined within TST's Final Evaluation Report, TST certifies that the RealTime Gaming RNG meets these requirements, for use with the following games / applications:

1. Card Games,
  - One 53 Card Deck,
  - One 52 Card Deck,
  - Two 52 Card Decks,
  - Four 52 Card Decks,
  - Six 52 Card Decks,
  - Eight 52 Card Decks,
  - Sixteen 52 Card Decks, and
  - Thirty-Two 52 Card Decks.
2. Craps,
3. Keno,
4. Roulette,
  - American Roulette, and
  - European Roulette.

Cont'd...

5. Slot Games,

- Aztec's Treasure,
- Bank On It,
- Bonkers,
- Caesar's Empire,
- Card Shark,
- Cleopatra's Gold,
- Crazy Dragon,
- Diamond Dozen,
- Diamond Mine,
- Diamond Mine Deluxe,
- El Toro,
- Food Fight,
- Frozen Assets,
- Goldbeard,
- Good to be Bad,
- High Rollers,
- Iris 300 (7 Reel),
- Jazz Time,
- Light Speed,
- Lions Lair,
- Lucky Lightning,
- Mid-Life Crisis,
- Mister Money,
- Operation MYOW,
- Pharaoh's Gold,
- Prince of Sherwood,
- Ronin,
- Sevens and Stripes,
- Shopping Spree,
- Super Diamond Mine,
- The Big Heist,
- Triple Sevens Inferno,
- Vikings Voyage, and
- Win a Million.

TST's evaluation was performed using a particular version of the RealTime Gaming RNG. TST's evaluation was based on specific information and materials as outlined within TST's Final Evaluation Report (including, but not necessarily limited to, correspondence, documentation, source code and software), as submitted to TST throughout the duration of the project. For verification purposes, TST has maintained a control version of all information and materials as listed above.

If you have any questions or comments, please contact us at our Vancouver office at +1 (604) 873-5833.

Yours sincerely,

Mr. Noah Turner  
Laboratory Manager
